AVENUE
AT ETIHAD TOWERS

We stand at the threshold of a world where creativity knows no boundaries. Echoes of the Soul gathers the latest creations of our artists—works born of imagination, authenticity, and a profound desire to connect. Each piece is created by artists with Autism, Behavioral Disorders, or Visual Impairments. Together, their works shine with the power of inclusion, inviting us into a realm of peace and wonder where colors and forms become voices of hope, resilience, and dreams of a more compassionate world. More than an exhibition, Echoes of the Soul is a celebration of diversity and the unifying force of art. It reminds us that creativity transcends barriers and speaks a universal language—one that bridges differences and brings us closer to one another.
